Education

IEC College of Engineering & Technology

BTech in Computer Science Engineering

Aug 2022 – Jun 2026

Greater Noida, UP

Experience

Prodesk IT

Jan 2026 – Apr 2026

Software Development Intern

Remote

- Contributed to both frontend and backend development, engineering scalable and efficient features aligned with business requirements, improving application performance by 25% and reducing load time by 20%.
- Collaborated in an Agile development environment to design, develop, test, and deploy high-quality applications, reducing bugs by 30% and significantly enhancing overall system reliability and efficiency.
- Optimized code and logic through debugging and code reviews, improving quality and development speed by 20%.

Motion Cut

Oct 2024 – Nov 2024

Frontend Development Intern

Remote

- Crafted and deployed responsive, visually polished, cross-browser websites using HTML, CSS, JavaScript, and Bootstrap, ensuring high accessibility and a truly seamless user interface across all modern devices.
- Optimized page architecture and refined stylesheets, significantly improving user interaction speed, which resulted in a 60% reduction in page load time and a 60% increase in average user session duration.
- Collaborated in an Agile environment, contributing to 8 code reviews which led to a 40% reduction in post-release bugs.

Projects

My IEC – Smart ERP | Major Project | *React.js, Node.js, MongoDB, Authentication (JWT)* | [LINK](#)

Feb 2026

- Engineered an end-to-end College ERP system to digitize academic and administrative operations.
- Designed RESTful APIs using Node.js & Express for attendance, results, fees, placements, and scholarships.
- Implemented role-based dashboards for Students, Faculty, Admin, Placement Officer, and Scholarship Management.

SkillPath – Centralized Learning Progress Tracker | *React.js, Node.js, MongoDB, Gemini API* | [LINK](#)

Aug 2025

- Built a **full-stack web app** with authentication, dashboard, quizzes, AI based doubt solving, managing user records.
- Integrated **Gemini API** for **real-time Q&A** and automated tool generation, decreasing latency by 42%.
- Established gamification features (leaderboards, streaks, etc.) boosting course completion rates by 30% during testing.

Skilled Boys – Worker Search Platform | *React.js, JavaScript, Node.js, MongoDB* | [LINK](#)

Jul 2024

- Engineered a full-stack platform connecting customers with skilled workers using location-based filtering, increasing user engagement by 45% and boosting lead generation by 40%.
- Built real-time listings and category search, cutting user search time by 35% while leading development.

Technical Skills

Languages: C++, JavaScript, Python, HTML5, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL, Firebase Realtime DB

Developer Tools: VS Code, GitHub, Figma, Vercel, Render, Netlify, Postman

Concepts: OOP, RESTful API Design, JWT Authentication, SDLC, API Integration, Debugging, Responsive UI

Certificates

- Node.js & MongoDB – SkillEcted – 2025**
- Digital Skills 101 – FutureSkills Prime – 2025**
- Hackathon Participant – GUVI & HCL – 2025**
- AI & ChatGPT Workshop – Let's Upgrade – 2024**
- JavaScript and React.js Certification – Infosys Springboard – 2024**

Achievements

- Won the **Tech Quiz Competition**, showcasing a broad understanding of technology and the ability to **solve complex challenges**.
- Solved over **100+ advanced Data Structures & Algorithms challenges** on LeetCode and GeeksforGeeks.
- Participated in **National-Level Hackathons** focused on UI/UX design and full-stack development.
- Achieved **4★** in C++ and **3★** in MySQL on HackerRank.
